Print Pricing Guidelines

I offer my images in a wide variety of sizes and presentations (loose, matted-only, framed, etc.). In addition, each image has a unique aspect ratio (ratio of height to width). The best way to see all the options I offer for each image, the exact sizes, and the prices for each, is to go to my website and locate the image you're interested in. Scroll to the bottom of the page where you'll find PayPal buttons with drop-down menus listing all the sizes and presentations that are available for purchase online.

Note that not all sizes and presentations listed in the pricing guidelines below are available to order online because some are too big to be shipped. All sizes and presentations listed here can be ordered, however, then picked up at my home office or delivered within the Denver metro area for a fee of \$1.00 per mile based on round-trip mileage.
